

I Found A Home!

I lived here in Low Gap Park for a long time. Lots of friendly peoples gave me food and made me a shelter. For the most part, life here was OK.

But the recent storms and all the rain and winds were wet and cold. Then a lady spent most of a rainy day with me. She got soaked too! But she seemed nice. She gave me a chance to get to know her. So when she asked, I decided to go with her and jumped in the truck. Now I have a yard and a doghouse and regular meals and toys and brushing and I even go inside. I think life is going to be good!

People here were nice to me and I thought they would want to know what happen to me, maybe. Thank you!
